

Forecast For Wales
Issued by Met Office Exeter
at 0400 on Monday 05 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Unsettled, with sunny spells and showers, and overnight heavy rain.

Today:

A mostly dry day, with a mixture of cloud and sunny spells. The odd shower remains possible. Later expect cloud building from the south, with the leading edge of a band of rain likely to follow by nightfall. Maximum temperature 20 deg C (68 deg F).

Tonight:

A band of rain, often heavy and with a chance of thunder, moving north through the country. It will likely linger in places until the early hours. Minimum temperature 7 deg C (45 deg F).

Tuesday:

An unsettled day, with sunny spells and scattered showers. Likelihood of showers increases through the day, possibly becoming widespread. Showers potentially heavy with a chance of thunder. Maximum temperature 20 deg C (68 deg F).

Outlook for Wednesday to Friday:

Wednesday and Thursday turning cooler, largely dry with sunny spells and showers, possibly heavy with a chance of thunder on Wednesday. Friday starting to turn warmer again, with variable cloud.
